

Megasquirt firmware licenses, updated 12th August 2014

MS1/Extra firmware license - 7 August 2014

The MS1/Extra firmware is copyrighted
2002 B. A. Bowling And A. C. Grippo
2003,2004,2005,2006,2007,2008,2009,2010,2011,2012,2013,2014
James Murray and Philip Ringwood
It is a commercial product. (i.e. it is NOT "open source")

Contains work by Magnus Bjelk, Eric Fahlgren, Guy Hill.

Permission is given to use the compiled code ("S19" file) and accompanying "INI" only on

- 908GP32 DIP40 microcontroller on official Bowling and Grippo mainboards or
- "EMS-Pro" ECU

This license does not give permission to use the "S19" file on other hardware or to use the "INI" file to tune other hardware.

For source code licensing see the source code license.

Permission is given to include the "S19" and "INI" files on CDs or other distribution media accompanying the sale of official B&G Megasquirt-1 products, kits or assembled systems ONLY in the case where this LICENSE file is provided intact. Equally CD images or zip files provided on Megasquirt vendors sites are permitted only when this LICENSE file is provided intact.

For Megasquirt-1 based product supplied with firmware pre-loaded, this LICENSE must be provided in printed form.

No fitness for purpose or warranty is provided with the code. It is the sole responsibility of the user to determine whether the code and system is suitable for their intended application.

It is a condition of this license that you absolve, indemnify and hold harmless the developers, resellers, manufacturers and distributors from any liability arising from direct or indirect use of the firmware. Use of the firmware is entirely at your own risk and liability. If you are not prepared to accept this, you are not permitted to use the firmware.

MS1/Extra is not designed for use in safety critical systems or pollution controlled vehicles.

Support and product information can be found via <http://www.msextra.com>

This license gives the user the right to use this firmware indefinitely on Megasquirt-1 based products purchased on or before 31st December 2015.

MS2/Extra firmware license - 27 January 2014

The MS2/Extra firmware is copyrighted
2003,2004,2005,2006 Bowling and Grippo
2004,2005 Philip L Johnson
2006,2007,2008,2009,2010,2011,2012,2013 James Murray and Kenneth Culver.
2009,2010,2011,2012,2013 Jean Belanger
It is a commercial product. (i.e. it is NOT "open source")

Permission is given to use the compiled code ("S19" file) and accompanying

"INI" only on official Bowling and Grippo (B&G) MS2 based products - MS2 (Megasquirt-2) cards; Microsquirt v1, v2 or v3; Microsquirt module cards. MS2 cards are only licensed for use with Bowling and Grippo mainboards. This license does not give permission to use the "S19" file on other hardware or to use the "INI" file to tune other hardware.

For source code licensing see the source code license.

Permission is given to include the "S19" and "INI" files on CDs or other distribution media accompanying the sale of official B&G MS2 products, kits or assembled systems ONLY in the case where this LICENSE file is provided intact. Equally CD images or zip files provided on Megasquirt vendors sites are permitted only when this LICENSE file is provided intact.

For MS2 based product supplied with firmware pre-loaded, this LICENSE must be provided in printed form.

No fitness for purpose or warranty is provided with the code. It is the sole responsibility of the user to determine whether the code and system is suitable for their intended application.

It is a condition of this license that you absolve, indemnify and hold harmless the developers, resellers, manufacturers and distributors from any liability arising from direct or indirect use of the firmware. Use of the firmware is entirely at your own risk and liability. If you are not prepared to accept this, you are not permitted to use the firmware.

MS2/Extra is not designed for use in safety critical systems or pollution controlled vehicles.

Support and product information can be found via <http://www.msextra.com>

This license gives the user the right to use this firmware indefinitely on MS2 based products purchased on or before 1st November 2015.

MS3 firmware license - 10 August 2014

The MS3 firmware is copyrighted 2007,2008,2009,2010,2011,2012,2013,2014
James Murray and Kenneth Culver.

Permission is given to use the "S19" file and accompanying "INI" only on official hardware:

- Bowling and Grippo (B&G) MS3 (Megasquirt-3) hardware, marked "MS3 v0.1 (C) 2009" and only with a Bowling and Grippo mainboard.
- "MS3-Pro" from DIYAutoTune.com, marked "MS3-Pro V0.1 (C)2012"
- "MS3-Pro module" from DIYAutoTune.com, marked "MS3-Pro Mod V1.0 (C)2012"
- "MS3-Gold" from AEA/EFISource marked "V1 (C)2013"

It is not permissible to use the "S19" file on other hardware; or the "INI" file to tune other hardware.

Permission is given to include the "S19" and "INI" files on CDs or other distribution media accompanying the sale of licensed hardware, kits or assembled systems ONLY in the case where this LICENSE file is provided intact. Equally CD images or zip files provided on Megasquirt vendors sites are permitted only when this LICENSE file is provided intact.

For MS3 cards or complete systems supplied with firmware pre-loaded, this LICENSE must be provided in printed form.

It is not permitted to reverse engineer or attempt to derive source code from

the provided "S19" file.

No fitness for purpose or warranty is provided with the code. It is the sole responsibility of the user to determine whether the code and system is suitable for their intended application.

It is a condition of this license that you absolve, indemnify and hold harmless the developers, resellers, manufacturers and distributors from any liability arising from direct or indirect use of the firmware. Use of the firmware is entirely at your own risk and liability. If you are not prepared to accept this, you are not permitted to use the firmware.

MS3 is not designed for use in safety critical systems or pollution controlled vehicles.

Support and product information for MS3-Pro can be found via www.DIYAutoTune.com.

General MS3 support and product information can be found via www.msextra.com

This license gives the user the right to use this firmware indefinitely on MS3-Pro or MS3-Pro module based ECUs.

This license gives the user the right to use this firmware indefinitely on other MS3 product purchased on or before 1st November 2015.

MS2 and MS3 daughtercards may only be used on Bowling & Grippo mainboards.

Microsquirt-module is licensed for use with any mainboard.

END.
